

CHOP CHOP BLOCK

2 - 10 inch squares - 1 light fabric and 1 dark fabric

***This will make an 11 1/2 inch block. All seams 1/4 inch.

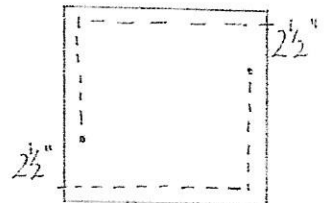

STEP 1

With right sides together, begin sewing down 2 1/2 inches from top right side edge. Backstitch at beginning. Pivot 1/4 inch from bottom right corner and sew to the bottom left edge, ending with a backstitch.

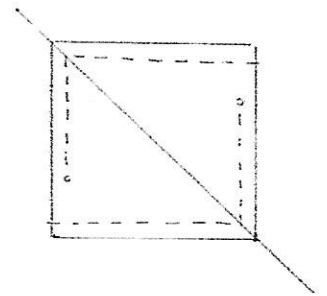

STEP 2

Rotate block and sew the last two sides in the same way.

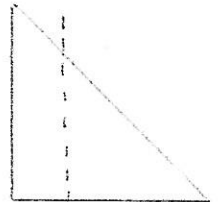

STEP 3

Cut the block diagonally through the sewn corners.

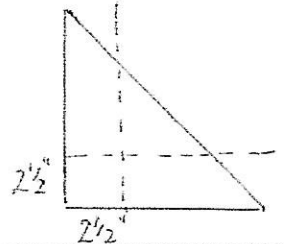

STEP 4

Place the triangles on top of one another carefully aligning all of the edges. Measure 2 1/2 inches from the left edge and cut vertically through all layers.

STEP 5

Without disturbing the triangles, measure 2 1/2 inches from the bottom edge and cut horizontally through all layers.

STEP 6

Arrange the units to form the chop chop block. Sew. Press seams in opposite directions so they will "nest" together. Trim block to 11 1/2 inches.
